Team Roles

Product Owner: Amalesh Arivanan

Scrum Master: Tianchen Huang

Developer: Alex Wise

Developer: Tong Wu

Developer: Louis Turrubiarres

Developer: Xin Tong

What is the sprint goal?

- For Sprint 3, the team will be working on EventNXT. The team will work on the sign out issue between EventNXT and Event360. Also, a referral reward feature. Finally, a feature to parse box office data from an excel file.

Which stories were pulled into the sprint? How many points?

User Story 10: *Keeping Track of Referrals*

- Points : 4
- As an event organizer using EventNXT
- So that I can monitor the effectiveness of agent referrals,
- I want a system to track individuals referred by agents and their ticket purchase status.

User Story 14: *Add Referral Reward Feature*

- Points: 4
- As an event organizer using EventNXT
- So that I can monitor the effectiveness of agent referrals,
- I want a system to track individuals referred by agents and their ticket purchase status.

User Story 15: *Upload Box Office Data*

- Points: 3
- As an event organizer using EventNXT
- So that I can streamline the integration of box office data with RSVP information,
- I want the ability to upload box office data and synchronize relevant columns between the box office and RSVP tables following the Spring 2023 version.

User Story 28: *Sign out fix*

- Points: 2
- As an EventNXT user,
- So that I can successfully sign out of my current session,
- I want to fix the sign out feature to sign out of event360

User Story 29: *Sign out tests*

- Points: 2
- As an EventNXT developer,
- So that I can make sure our feature works
- I want to write tests to ensure that the feature runs successfully.

User Story 30: *Upload box office data feature tests*

- Points: 3
- As an EventNXT developer,
- So that I can make sure our feature works
- I want to write tests to ensure that the feature runs successfully.

User Story 31: *Referral Reward feature tests*

- Points:2
- As an EventNXT developer,
- So that I can make sure our feature works
- I want to write tests to ensure that the feature runs successfully.

User Story 32: *Tracking Referrals tests*

- Points: 2
- As an EventNXT developer,
- So that I can make sure our feature works
- I want to write tests to ensure that the feature runs successfully.

To whom is each story assigned?

User Story 15,28,29,30: Alex and Amalesh

User Story 10, 32: Louis and Tianchen

User Story 14, 31: Xin and Tong

What are the tasks and their time estimates?

- Keeping Track of Referrals
- Add Referral Reward Feature
- Box Office Data Upload and Sync
- Sign out fix
- Sign out tests
- Upload box office data feature tests
- Referral Reward feature tests
